All articles are published on the front page, and included in our weekly email newsletter to more than 17,000 subscribers. We also share content across all of our social networks, which have more than a combined 35,000 followers, each day. A short company or author profile with links and contact details are included both on published articles and in your author biography page. Between 85,000 and 100,000 unique visitors read articles published on InnovationManagement every month.
